

*We cordially invite you to grace the occasion of
The Inaugural Ceremony of*

Dr Sujata Kar
Dr Sidhanta Kar
Dr Prabhu Mishra

Venue - Mayfair Lagoon (Orchid Hall)
10th April, 2016 Sunday, 11am onwards

UNEARTH THE TREASURE WITHIN

A stem cell can differentiate into many cell types and replicate itself rapidly, hence it is the master cell of our body. When a stem cell divides, each new cell has the potential to become another type of cell with a more specialized function i.e. skin, muscle, liver, brain cell etc. or the red blood cell. This holds huge clinical, anti-aging and beauty restoration potentials.

Why choose GennRx
treastem cell treatments

- ✓ Most advanced break through stem cell technology
- ✓ Quick, natural, long term results
- ✓ Safe – uses your own body cells
- ✓ Affordable
